Li.Bo

INDUSTRIAL SUPPLIES & MAINTENANCE

Li.Bo is a company established in 1988, which has been operating for over 30 years in the national and international market of industrial and electro-instrumental supplies, supplier of the largest companies in the Oil&Gas sector. This native sector has been successfully joined by the environmental, aqueduct, energy, water purification, pharmaceutical, food, aviation and plant engineering sectors.

It also distributes industrial tools and equipment and assists customers with engineering and maintenance services regarding the installation and use of the products themselves. Li.Bo provides studies and engineering alignments to find the best solution in technical and economic terms. With the Brico division, Li.Bo deals with wholesale and retail trade of hardware.

The wide range of products and services offered widely satisfies all market demands in various sectors, allowing to have a single reliable interlocutor for all operational and production needs. The highly computerized warehouse guarantees a perfect stock management. A particular strong point is the wide range of articles in prompt delivery, which allows a rapid processing of orders, a fast delivery and a reduction in warehouse costs of the end user.

Li.Bo is part of the Consorzio Industriale Lucano (CIL), the Rete Era (RERA) and ELITE, the Euronext Group's private market that connects companies to different sources of capital to accelerate their growth. Li.Bo is present on the portals MEPA (Public Administration Electronic Marketplace) and REPRO Achilles (Prequalification System for the Public Service Sector used in South America and Southern Europe). **Li.Bo has 9 Locations, 10.000 m2 of covered warehouses, 35 years experience.**

Mission:

Constant search and selection of reliable and qualified manufacturers in both local and international markets, to support customers' business with material supplies that follow international QHSE (Quality, Health, Safety, Environment) standards.

KEY POINTS FOR YOUR BUSINESS

- ➔ More than 30 years of technical experience in material selection
- ➔ Structured organization of warehouses and branches
- ➔ Thousands of OEM items from market-leading companies, selected and stored to ensure functionality and reliability over time, immediately available in stock or through the supply network
- ➔ Established, long-term technical expertise
- ➔ On-time and cost-effective delivery, guaranteed by the company's organization capable of real-time verification of all stocking as if it were a single warehouse, with immediate involvement of suppliers on the different locations
- ➔ Logistics that actively contributes to the reduction of outsourcing activities
- ➔ Highly qualified sales experts for quick response to meet Customer's technical specifications or develop "ad hoc" solutions

Li.Bo is a reliable business partner and the only interface for all material supply needs.

COMMODITY CLASSES & SERVICES

- ➡ **MECHANICAL INDUSTRIAL MATERIALS FOR THE OIL & GAS AND ENERGY INDUSTRY.**
Valves, fittings, pipe flanges in all materials, measuring instruments
- ➡ **INDUSTRIAL BUILDING MATERIALS**
Special steels, sheet metal, metal piping, road tires and accessories, welding consumables, bulk electrical materials, cables and fiber optics
- ➡ **HAND TOOLS AND PORTABLE TOOLS**
- ➡ **WELDING TOOLS, NON-PORTABLE MACHINES**
- ➡ **DISTRIBUTION OF CHEMICAL MATERIALS, INDUSTRIAL GASES, PAINTS**
- ➡ **PROTECTIVE CLOTHING/ACCESSORIES - POSTERS FOR CONSTRUCTION SITES
(SAFETY D.L. 626)**
- ➡ **FILTRATION UNIT**
- ➡ **FIRE PROTECTION**
- ➡ **INDUSTRIAL CLEANINGS**

WAREHOUSE

➔ **10.000 sq. m.**
of covered warehouses

➔ Express service of
delivery in 24 hours

➔ Warehouse
highly computerized

OIL & GAS DIVISION

MECHANICAL SUPPLIES & SERVICES

Backed by extensive experience in the Oil&Gas industry, LI.BO has become a reliable partner for every customer for specialized industrial supplies including but not limited to:

- ➔ Instrumental and process plant materials
- ➔ Wide range of mechanical products, fittings, flanges, piping and valves
- ➔ In-line instruments and pressure reducers
- ➔ Seals, tie rods, rupture discs, etc.

Available mechanical maintenance services include PSV calibration, maintenance of flame detectors, oil filtration unit.

ELECTRICAL AND INSTRUMENTAL SUPPLIES

Li.Bo knows that quality is a key element in electrical supplies, which is why it uses only partnerships with leading companies in the industry. It thus guarantees the best selection of products, of the highest quality, time-efficient and for safe use.

- ➔ **Electrical sockets and cables of all kinds**
- ➔ **Materials for electric door communication**
- ➔ **Control panels**
- ➔ **Lampholders**
- ➔ **Life-saving control unit**
- ➔ **Etc.**

LI.BO also offers a wide range of electronic equipment for private and professional use, various lighting accessories, ceiling lights and connectors for civil and industrial automation.

CONSTRUCTION AND WATER SYSTEMS

Li.Bo is active in the construction of industrial and civil systems, for the water, air, electricity and green services sectors.

Experience, modern equipment and plant technologies are the strength, as well as the possibility of pre-assembling system components, thus minimizing construction time on site.

Having prepared the construction design of the facilities and carried out the inspection of the installation site, the construction plan useful for the realization of the prefabrication and pre-assembly of the facilities and all their components is made.

MAINTENANCE

We also perform mechanical and electrical assemblies, using materials from the best manufacturers.

PEOPLE

A team of professionals at your service

Li.Bo staff consists of experienced professionals, competent, dynamic people stimulated by continuous updating.

Available to our customers, to support them every day in their choices, suggesting the most suitable products for their business. We are with customers before and after the sale.
